

Teaching and Learning

50 Ways to Improve the Quality of Engineering Education

Hossein Memarian
Professor of Geo-Engineering
University of Tehran
2019

Contents

Preface

Introduction

Part I: Teaching and learning\ 1

- 1-1. Preparing course outline
- 1-2. Objectives and outcomes
- 1-3. Active learning
- 1-4. Learning styles
- 1-5. Teaching with PowerPoint
- 1-6. Seven Principles of good teaching practice
- 1-7. Promoting students motivation
- 1-8. Multiple intelligence and learning

Part II: Teaching Engineering\ 45

- 2-1. Teaching communication skills
- 2-2. Teaching professional writing
- 2-3. Publication of research findings
- 2-4. Teaching teamwork
- 2-5. Teaching creative thinking
- 2-6. Teaching sustainable development
- 2-7. Teaching professional ethics
- 2-8. Teaching engineering global challenges
- 2-9. Necessary skills for engineering students

Part III: Engineering education assessment\ 91

- 3-1. Students learning assessment
- 3-2. Assessment with rubric
- 3-3. Accreditation of engineering programs
- 3-4. Internal assessment of engineering programs
- 3-5. External assessment of engineering programs
- 3-6. International engineering education accords
- 3-7. Standard engineering education
- 3-8. Deficiencies of engineering education programs of Iran

3-9. Improving the quality of engineering education

Part IV: Engineering education planning\ 139

- 4.1. Revaluation of Iran engineering education programs
- 4.2. Designing and revaluation of engineering courses
- 4.3. New introduction to engineering course
- 4.4. New graduate course on engineering
- 4.5. New Master of engineering education
- 4.6. Revaluation Teaching of capstone course
- 4.7. Teaching engineering Design
- 4.8. Faculty development
- 4.9. Teaching assistants training
- 4.10. Challenges of online engineering education

Part V: Engineering Education Management\ 193

- 5-1. Engineering students internship
- 5-2. Undergraduate minors in engineering
- 5-3. Selecting top students by dean's list
- 5-4. Students attendance monitoring
- 5-5. Modifying students' performance report
- 5-6. Revising students online survey
- 5-7. Supplementary paper-based students survey
- 5-8. Revaluation of exams instructions
- 5-9. Revaluation of educational calendar

Part VI: Futures Study in engineering education\ 237

- 6-1. Needs for future studies in engineering education
- 6-2. Needs for innovation in engineering education
- 6-3. Decline of high school students interests to engineering
- 6-4. Internationalization of engineering education
- 6-5. Knowledge management in higher education
- 6-6. Formation of educational research groups
- 6-7. Futures study in UNESCO Chair on Engineering Education
